PROVIDING RELIABLE ANDTIMELY LOGISTICS SOLUTIONS

...Your Global Logistics Partner

Meet Hont Global...

On our journey to becoming the leading freight and logistics partner of choice, we provide the most robust services in freight forwarding, logistics, warehousing, quality management and feasibility studies. In addition to offering expert sourcing, costing and scheduling services, we began security (Surveillance & Monitoring) services in August 2012. We operate on a network spanning the four key continents with major trade routes to West Africa; North America, Europe, Asia and Africa. Hont Global is strategically positioned in each of the locations, with reliable service providers and trade partners. From these nerve centers, we plan to reach further out to locations of emerging need and opportunities for logistic solutions. We have an experienced management team working with a well-trained staff body working hard to achieve these goals. In the long run, our aim is to make Hont Global the household name in the freight and logistics industry, in every one of our locations.

Freight Forwarding

HONT GLOBAL SERVICES is at the forefront of the freight forwarding industry in Nigeria, providing first class customer service to importers, exporters and the industry.

In order to provide our clients with reliable total transportation solutions, our services incorporate both air freight and ocean freight on a door to door basis. A direct computer link with the Nigerian Customs enables us to expedite the processing of customs documentation efficiently.

Through our global network of partners we are able to provide a vast range of services to cover anything from basic transportation to major logistics projects, all tailored to individual customer needs. With our Licence under the Nigerian Customs Service, we thereby ensure that our quality services confirm to the nationally accepted criteria and regulations.

OUR FREIGHT SERVICES INCLUDE

- Ocean freight
- International Trucking
- Customs Brokerage
- Project Cargoes
- Warehousing
- Air freight
- Door to Door Deliveries
- Third Party Logistics

Procurement

We deploy our experience and state-of-the-art technology to develop customized procurement solutions for our clients. However large or small the project is, we provide flexible and robust procurement solutions to help our clients' business become more effective, profitable and successful by applying the best practice to all their procurement and sourcing activities.

OUR PROCUREMENT SERVICES INCLUDE

- Supply Chain Management
- Strategic Sourcing
- Interim Procurement Projects
- Spending Analysis
- Supplier Relationship Management
- E-Procurement

Quality Management

HONT GLOBAL SERVICES Quality management strategy focuses on the processes necessary for identifying the quality standards relevant to the project and determining how to satisfy them.

We deploy a quality management plan that is consistent with international standards. We uphold the quality metrics or key performance indices set by the contractor as applicable to any project. In addition, we develop a quality checklist that engineers would observe on a project to ensure that the quality standards are met. We then set a quality baseline that would serve as a checklist for measurements.

1. Quality Planning

- Determine the environmental factors that can affect quality in the project.
- Evaluate the organizational processes and quality standards. Evaluate the scope of work and quality implication at every stage of the project.

2. Quality Assurance

- Develop a quality management metrics in accordance with the clients' standards
- Develop a process improvement plan for processes that are lagging.
- Approve change request and ensure proper implementation.

Warehousing and Logistics

In developing a channel for seamless logistics operations, we have successfully integrated multi-modal transport concepts into our operations. With this wider vision, cargo no longer travels to gateway ports for consignee intervention.

Our staff are trained to drive the process, culminating in goods being delivered across multiple borders quickly through various channels. Hont Global enjoys a reputation of professional service and effective marketing, and prides itself in providing TOTAL CUSTOMER SATISFACTION.

Our second advantage is having the expertise on the ground at destination to effectively and efficiently clear your cargo through the potentially complicated maze that is synonymous with customs procedures throughout the developing world.

Hont Global Services provides door to door, multi-modal services not only to the major trade routes, but also to small, remote areas, which are not regularly serviced by our competitors.

We also handle exportation of both commercial and household goods to any part of the world on door-to-door basis. Whatever the project, wherever the destination, Hont Global Services will document, plan and execute deliveries.

Corporate Social Responsibility

Just as we seek to link the world across continents we also strive to link the less privileged with opportunities to improve their social status and outlook towards life.

In doing this, we have found education to be the most effective tool for raising the poor through a system devoid of social security. We have chosen to start from the foundations, providing resources for children in the primary stage of the Nigerian Education System.

Our efforts range from books to tuition relief, from examination registrations to rewards for excellence. At the secondary level, we provide educational subsidies to select outstanding but indigent students. As well, we fund external examinations for such individuals.

In rare cases, where we recognize exceptional talent for business in individuals without the strong educational foundation to back it up, we assist in subsidizing adult education programs and provide them business internship opportunities with us.

Our firm belief at Hont is that if we can do this, we open doors to otherwise locked-in individuals and give them a breath of fresh air. We are happy to contribute.
